MEMORIES

We focused more on capturing happy moments with the two couples trying to capture memories to be remembered, thus bringing out the BW theme.

In our venture for this theme
we also decided to relate with
nature and our source of
light was natural

Let's take a walk and explore

Chit chat moment

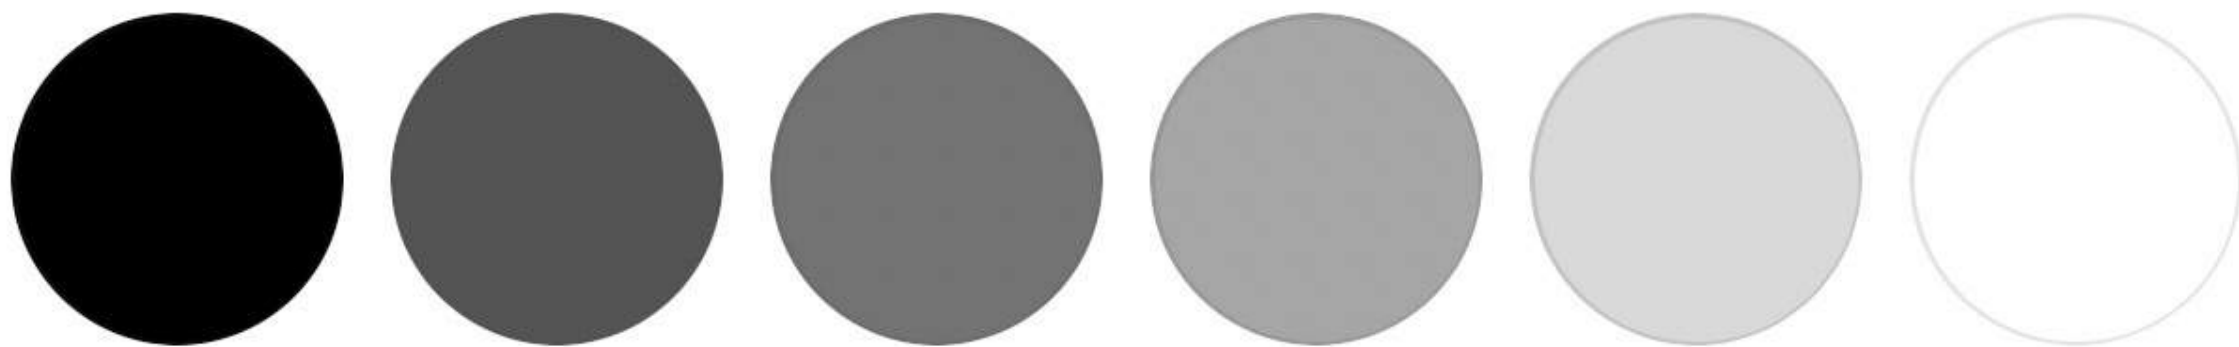

Capturing each frame of a memory

Without the distraction of color
small details like intertwined
fingers, a shared glance or the
texture of clothing gain
significance and tell a story of
connection of love

These images were rendered in
shade of a single colour, typically
black and white.
