INTRODUCTION

This report explains the marketing challenges and strategic responses of KIIRA MOTORS CORPORATION

The aim is to develop modern and appealing visuals that connect with the market audience through creative visual telling.

BACKGROUND INFORMATION

Kiira Motors Corporation (KMC) is Uganda's pioneer automotive manufacturer and a leading developer of electric and hybrid vehicles in Africa. Despite remarkable engineering achievements, including the Kayoola Ev bus, KMC faces significant marketing challenges that limit market penetration and commercial viability.

These challenges include high unit cost, limited brand awareness, inadequate infrastructure and weak marketing capacity. The project seeks to develop and implement a comprehensive marketing strategy to enhance KMC's brand presence, boost adoption and position it as a key player in Africa's sustainable mobility transition.

FIRST BUS

PROJECT GOAL

To strengthen Kiira Motors marketing capacity and market presence through a series of creative visual telling techniques that increase awareness, builds customer trust and drives adoption of electric and hybrid vehicles in Uganda and the East African region

OBJECTIVES

Make market research to understand customer needs, adoption and brand perception

Develop a marketing strategy that aligns with KMC's production and growth goals

Build brand visibility through strategic communication (posters and comic strips)

Implement awareness and demonstration campaigns to build trust in KMC's vehicles

Establish a monitoring and evaluation framework to access marketing performance

RESEARCH OUTCOME

STRENGTH

- › Strong government support
- › symbol of national pride and innovation
- › skilled local engineering team
- › First indigenous EV automaker in Africa

WEAKNESS

- › High unit production cost
- › Limited production scale
- › low marketing and export expertise
- › incinsistent funding

THREATS

- › Cheap imports (used cars, Chinese EV's)
- › weak charging infrastructure
- › Customer skepticism about EV's

OTHER EV's COMPANY

BYD

TESLA

VOLKSWAGEN

OTHER EV's COMPANY RESEARCH

STRENGTH

- › Strong government support
- › Strong market
- › strong emphasis on innovation
- › strong investments

WEAKNESS

- › High prices that limit the market
- › service network limitation
- ›

THREATS

- › High cost of raw material right from deposits
- › competition for market with non EV's
- › Customer skepticism about EV's

PERSONA

NAME: Elly Harvey Mugisha

Occupation: Finalist student of computer science Makerere University

Residence: Mbuya, Kampala

Core identity: Mugisha is the face of Uganda's emerging green tech youth movement. He doesn't just love electric vehicles just for transport but desire to make them easy to use in Uganda through developing an open source app that maps charging points in the country

PSYCHOGRAPHIC PROFILE

VALUES: sustainability innovation, national pride, efficiency

PERSONALITY: Ambitious, informed, socially conscious tech- savvy

LIFESTYLE: Lives in the city, commutes daily to work, enjoys weekend drives, follows tech and business news

ASPIRATIONS:wants to be part of Uganda's modernization and contribute to environmental protection

PERSONA QUOTE: "i want my next car to be modern, affordable to maintain, and environmentally friendly. If its made in Uganda, even better- i want to be part of that story.

MARKETING STRATEGY

PRODUCT STRATEGY

Emphasize reliability cost savings and modern design

PROMOTION STRATEGY

Use story telling to highlight and showcase success stories of Ugandans driving KIIRA vehicles

PRICING STRATEGY

partner with banks or SACCOs to provide accessible EV financing

PLACEMENT STRATEGY

ensure visibility in urban centers at corporate or government institutions

PROPOSED SOLUTION

We decided do creative story telling through visuals such as advertising posters for the city dwellers and comic strips for the youth and interested people following the powerful African patterns for easy identity

WHY STEPS MATTER

Building a strong brand identity

simplifying complex ideas

creating emotional connection

Enhancing communication
across media

CONCLUSION

visual story telling is a powerful way for KIIRA MOTORS to improve its marketing and connect better with the public. Using strong visuals like posters, comic books among others makes it easier to explain electric vehicle technology, attract attention and build modern brand image

This approach helps KIIRA MOTORS reach more people, engage customers, attract investors and promote uganda's innovation. Strengthening visual communication will therefore make KIIRA MOTORS more competitive and support its long term growth in the automative industry

THANK YOU
