WELCOME MESSAGE

Welcome to the world of Asali.

Asali is more than a honey brand. It is a commitment to truth, sustainability, and origin transparency. Every element within this identity system is designed to reflect a single promise: what you see is real, what you taste is pure, and what you scan is verified.

This guide ensures that every expression of the brand—visual, verbal, or physical remains consistent, recognisable, and trustworthy across all platforms and markets.

BRAND STORY

- History
- About Us
- Vision, values and Mission

HISTORY

Asali was born from a simple but urgent realisation: Uganda produces some of the world's finest honey, yet much of its value is lost due to lack of trust and poor representation.

In markets flooded with adulterated products, authenticity became invisible. Asali was created to restore that visibility—by combining traditional beekeeping heritage with modern traceability systems.

01. Poor packaging

02. Poor storage

ABOUT US

Asali is a Ugandan premium honey brand that delivers verified, traceable and sustainably packaged honey.

We work directly with local beekeepers to ensure that every jar represents a real person, a real place, and a real harvest.

BRAND GOALS

01. Vision

- To make Ugandan honey the global benchmark for purity, traceability, and sustainability.

02. Mission

To deliver honey that is:

- Authentic — fully traceable to its source
- Sustainable — packaged with minimal environmental impact
- Meaningful — connecting consumers to origin stories

03. Brand Values

- Trust — every product must be verifiable
- Transparency — nothing is hidden
- Sustainability — waste is minimised at every stage
- Authenticity — real people, real origins
- Innovation — combining nature with technology

concept 6

LOGO SKETCH

Logo Meaning

- Bee - origin, production, ecosystem
- Flowing curves - honey, continuity, lifecycle
- Bold text - trust, strength, reliability

The logo reflects a balance between nature and structured verification.

PRIMARY LOGO

The Asali logo is a custom wordmark integrated with a stylised bee illustration.

- The bee is embedded into the lettering, forming a unified visual identity
- The flowing lines represent honey movement and natural processes
- The bold structure ensures clarity and recognisability

LOGO VARIATIONS

- Primary (black on gold)
- Inverse (white on dark background)
- Monochrome (single colour)

BRAND PATTERN

THE HIVE GEOMETRY

The hexagonal pattern is a universal symbol for honey and bees.

Using simple, thin black lines on white keeps it modern and premium

Traceable Elements

Interspersing small, simplified bees within the honeycomb reinforces my Trace the Hive mission

LOGO USAGE AND MISUSE

Logo Usage

- Use on clean, uncluttered backgrounds
- Maintain high contrast at all times
- Ensure consistency across all materials

Do NOT:

- Distort or stretch
- Change colours outside palette
- Add effects (shadows, gradients)
- Place on busy backgrounds
- Separate the bee from the wordmark unnecessarily

COLOUR PALETTE

- Primary Colours
- Secondary Colours
- Colour Application
- Colour misuse

PRIMARY COLOURS

Honey yellow

Represents honey, warmth and value

HEX FEBE10

RGB 254. 190. 16

Black

Represents trust, strength and clarity

HEX 1A1A1A

RGB 26.26.26

COLOUR PALLETE

SECONDARY COLOURS

Light grey

Represents nature and sustainability

HEX F2F2F2

RGB 242. 242. 242.

Soft white

Represents cleanliness and balance

HEX FFFFFFFF

RGB 255. 255. 255

COLOUR APPLICATION

USE

Gold- text and logo

Grey - backgrounds and highlights

White - clean layout space

Green - subtle accesnts

cover the top after
usage

MISUSE

Avoid neon or bright yellows

Low contrast combinations

Excessive colour mixing
