

MULAGO SMART GUIDE

AI-powered hospital guidance helping visitors, caretakers, and staff move with confidence.

PROJECT OVERVIEW

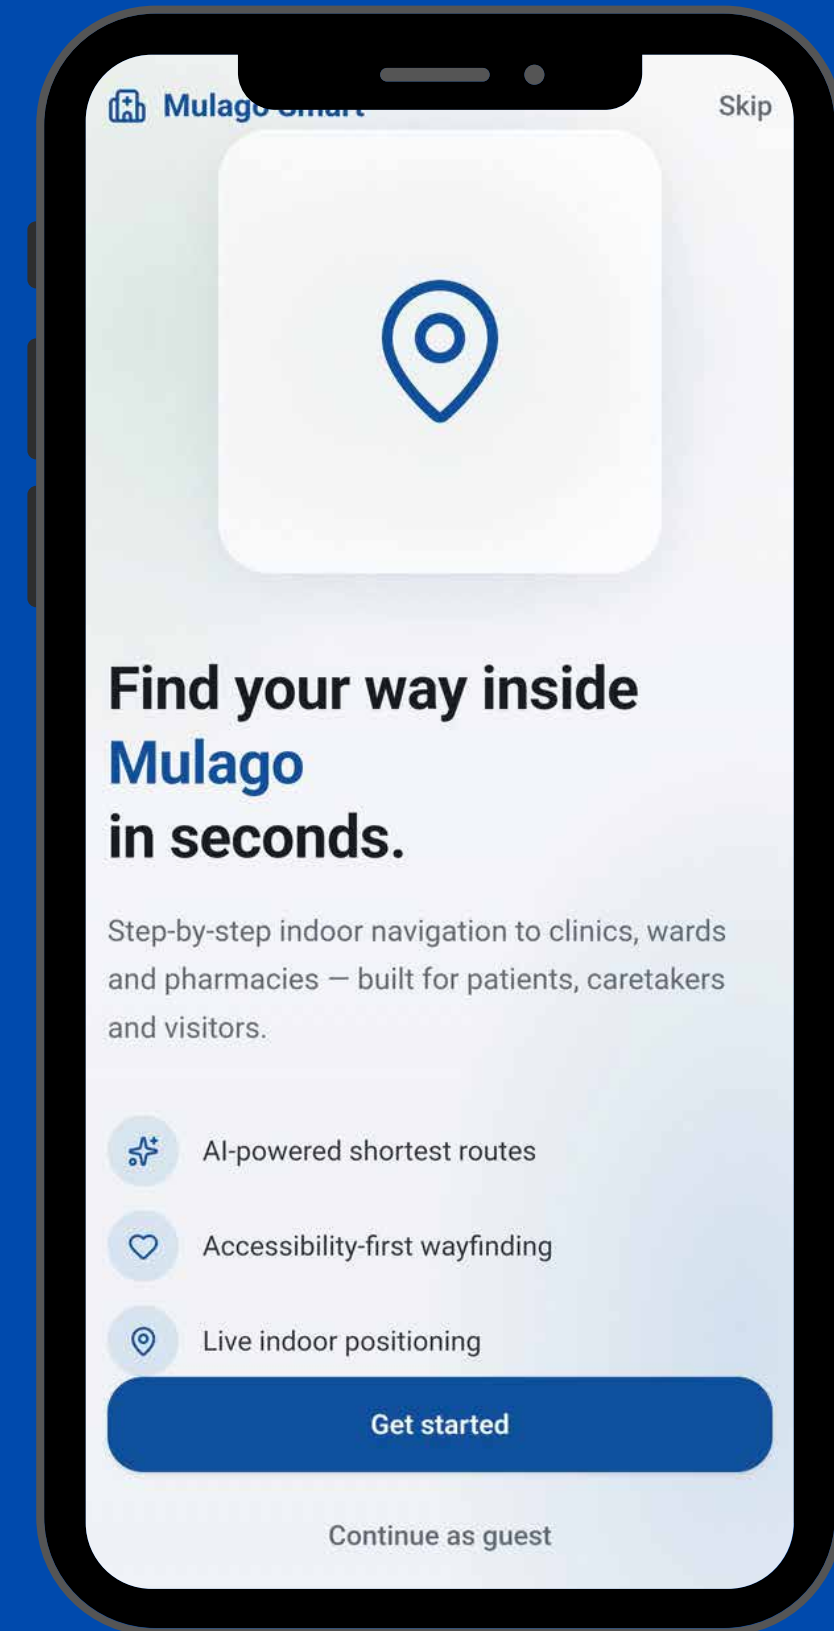

The Mulago Smart Navigation & Patient Support App is a digital healthcare ecosystem designed to improve navigation, accessibility, communication, and patient support inside hospitals in Uganda, beginning with Mulago National Referral Hospital.

The platform combines:

- Smart hospital navigation
- AI-assisted healthcare support
- Appointment booking
- Indoor hospital mapping
- Caregiver support systems
- Emergency routing
- Medication reminders
- QR-based hospital navigation

The system is currently in MVP stage and has been designed by a founding team of seven Ugandan product designers and developers.

The long-term vision is to scale the platform into a smart healthcare infrastructure system for hospitals across Uganda and East Africa.

BUSINESS MODEL CANVAS

CUSTOMER SEGMENTS

Primary Users

1. Hospital Visitors

People visiting hospitals who struggle to navigate large medical facilities.

2. Caretakers

Family members or guardians supporting patients who require navigation assistance, reminders, and patient coordination.

3. Hospital Staff

Doctors, nurses, interns, and administrators requiring efficient movement across departments.

Institutional Customers

4. Hospitals

Public and private hospitals seeking digital transformation and improved patient experience.

5. Government Health Institutions

Potential collaboration with:
Ministry of Health Uganda
National healthcare digitalization programs

6. NGOs & Healthcare Innovation Programs

Organizations funding healthcare accessibility and digital health innovation.

VALUE PROPOSITION

Core Problem

Large hospitals in Uganda are difficult to navigate due to:

- Limited signage
- Congestion
- Complex layouts
- Language barriers
- Lack of digital guidance systems

Our Solution

A smart mobile healthcare platform that:

- Guides users around hospitals
- Reduces stress and confusion
- Improves patient movement
- Digitizes healthcare navigation
- Enhances hospital efficiency

Key Benefits

Visitors

- Easy navigation
- Faster movement
- Reduced stress

Caretakers

- Medication reminders
- Appointment tracking
- Patient coordination

Staff

- Efficient workflows
- Reduced interruptions
- Faster navigation

Hospitals

- Reduced congestion
- Improved patient experience
- Digital transformation
- Better operational efficiency

CHANNELS

Digital Channels

- Google Play Store
- Apple App Store
- Hospital websites
- Social media platforms

Physical Channels

- QR code posters inside hospitals
- Reception desks
- Hospital onboarding sessions
- Healthcare conferences

Strategic Partnerships

- Hospitals
- Universities
- Government health agencies
- Innovation hubs

CUSTOMER RELATIONSHIPS

Relationship Strategy

AI Support

Embedded healthcare AI assistant.

In-App Support

Help center and FAQs.

Hospital Training

Staff onboarding and user guidance.

Community Engagement

Continuous user feedback and social engagement.

REVENUE STREAMS

1. Hospital Licensing Fees

Hospitals pay annual subscription fees.

Estimated:

UGX 10M–30M annually per hospital.

2. Government Partnerships

Digital healthcare transformation contracts.

3. Sponsored Healthcare Listings

Pharmacies and healthcare services pay for visibility.

4. Analytics Dashboard

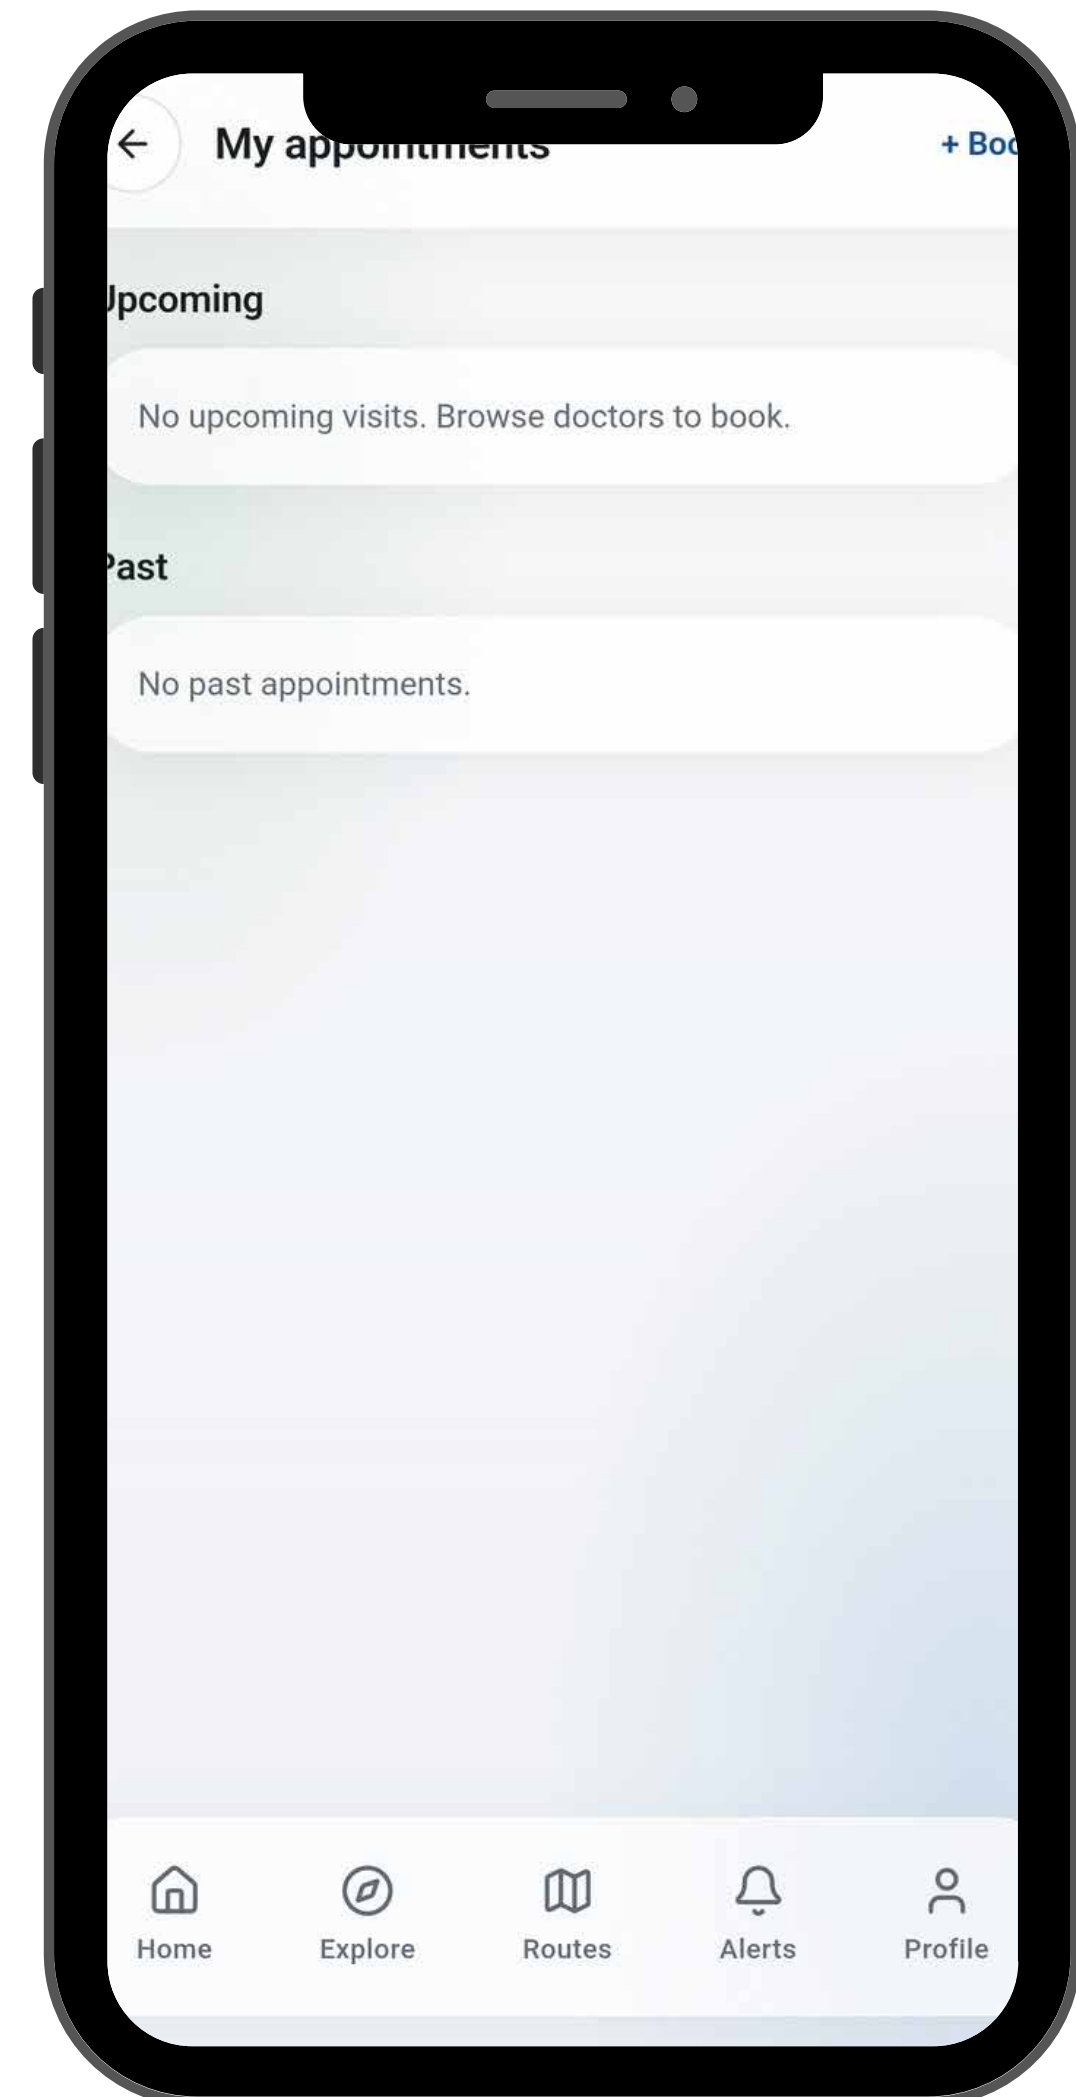

Hospitals pay for operational insights and crowd analytics.

5. White-Label Hospital Solutions

Custom versions for other hospitals.

6. Appointment Convenience Services

Small fees on premium appointment features

KEY ACTIVITIES AND RESOURCES

ACTIVITIES

- App development
- Backend management
- AI integration
- Hospital mapping
- User support
- Marketing
- Business partnerships
- Data management
- Security management

Human Resources

- Founding team
- Technical team
- Marketing team
- Support team
- Hospital onboarding staff

Technical Resources

- Cloud infrastructure
- Google Maps API
- AI APIs
- Mobile app systems
- Backend servers

KEY PARTNERS

Healthcare

Mulago National Referral Hospital
Ministry of Health Uganda

Technology

Google
OpenAI

Education

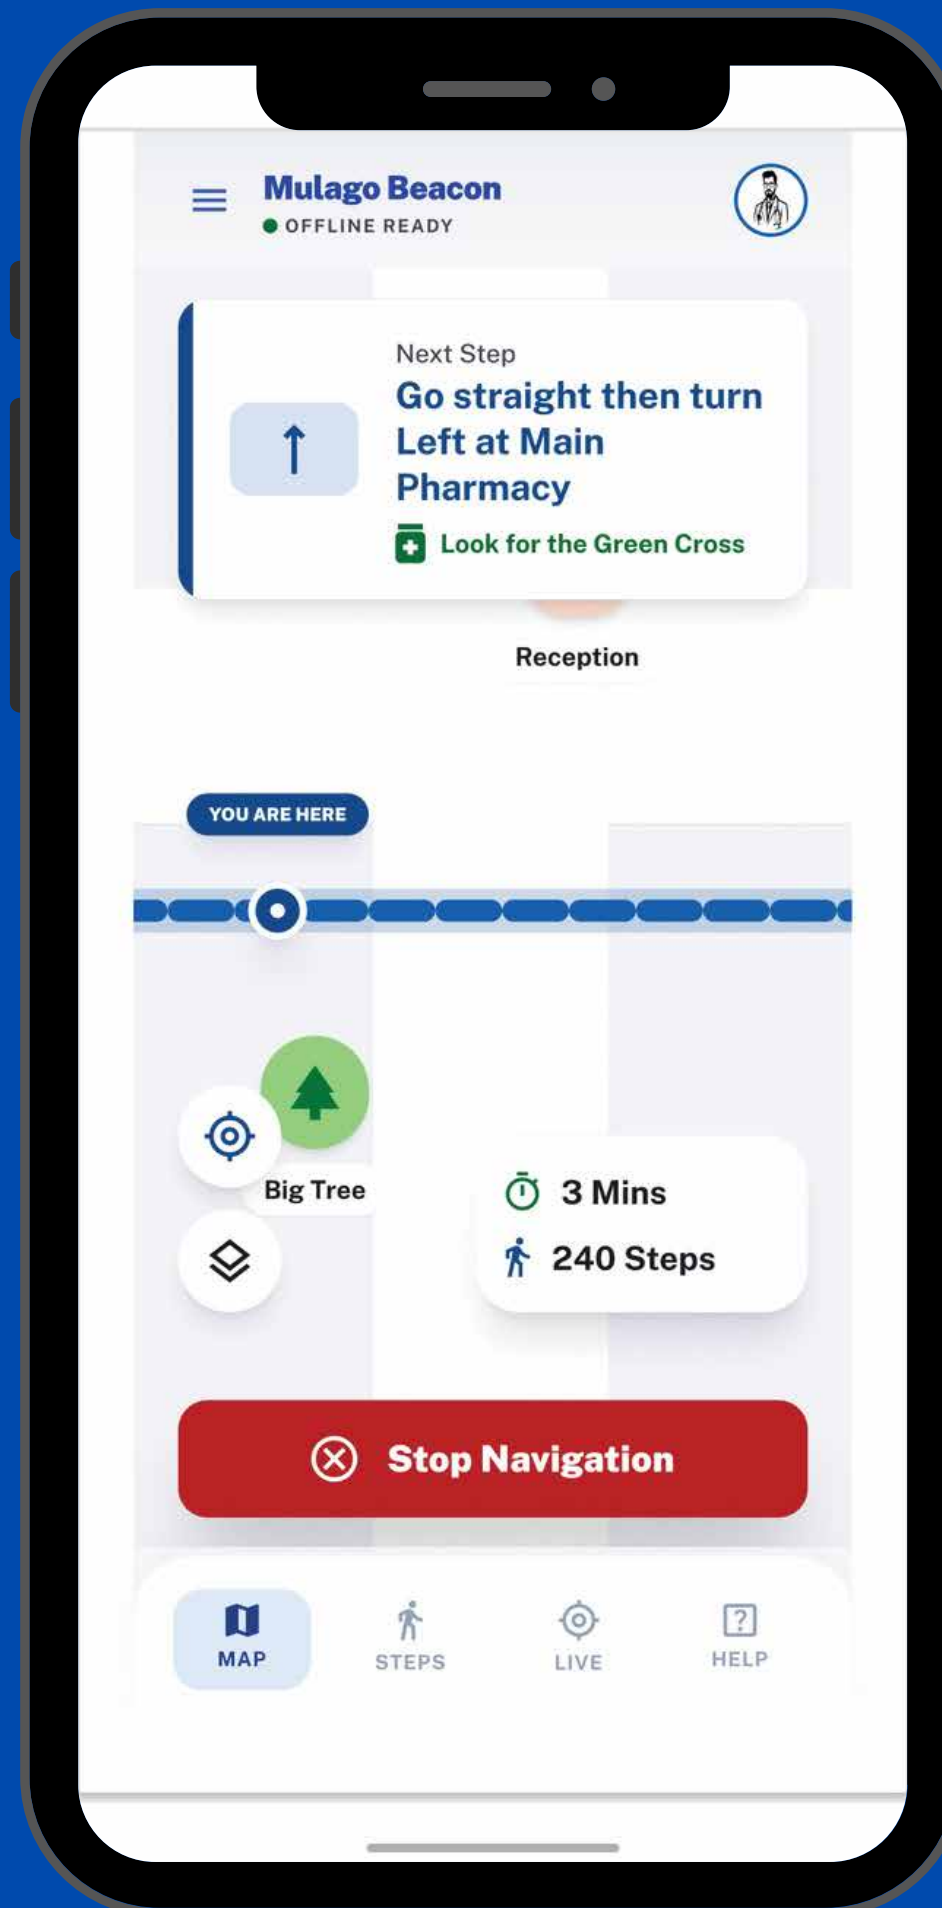

Makerere University

INVESTMENT STRUCTURE

TOTAL INVESTMENT REQUIRED UGX 240,000,000

This investment will sustain:

- MVP completion
- Infrastructure
- Operational launch
- Staff salaries
- Hospital onboarding
- Marketing
- System maintenance
- Expansion planning

INVESTOR PROFIT STRUCTURE

Investor Share

Investors receive:
45% of company profits

Founders Share

The seven founders collectively retain:
55% ownership and profit share

This maintains:

Founder motivation
Long-term sustainability
Investor attractiveness

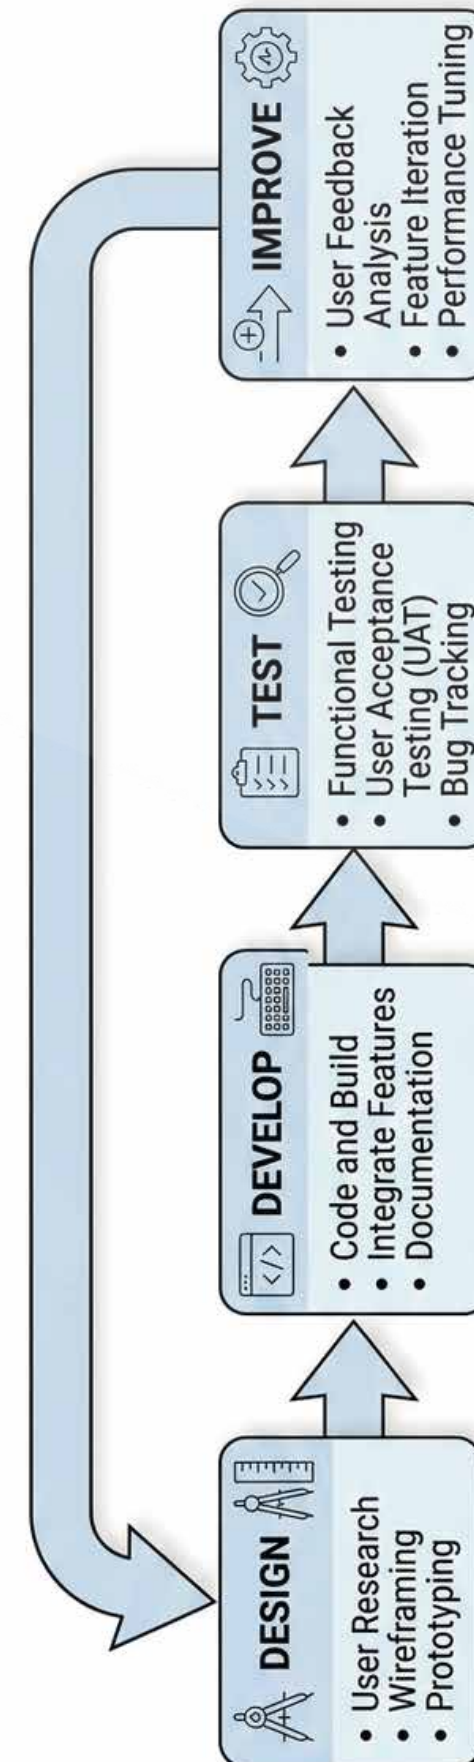

MARKETING STRATEGY

PHASE 1 — MVP PILOT

Launch pilot program at:
Mulago National Referral Hospital

Goals:

Real-world testing
User onboarding
Data collection
UX refinement

PHASE 2 — DIGITAL AWARENESS

Social Media Marketing

Platforms:

TikTok
Instagram
LinkedIn
Facebook
X (Twitter)

Content:

Hospital navigation demos
AI assistant showcases
Real-life hospital problems
User testimonials
Behind-the-scenes product development

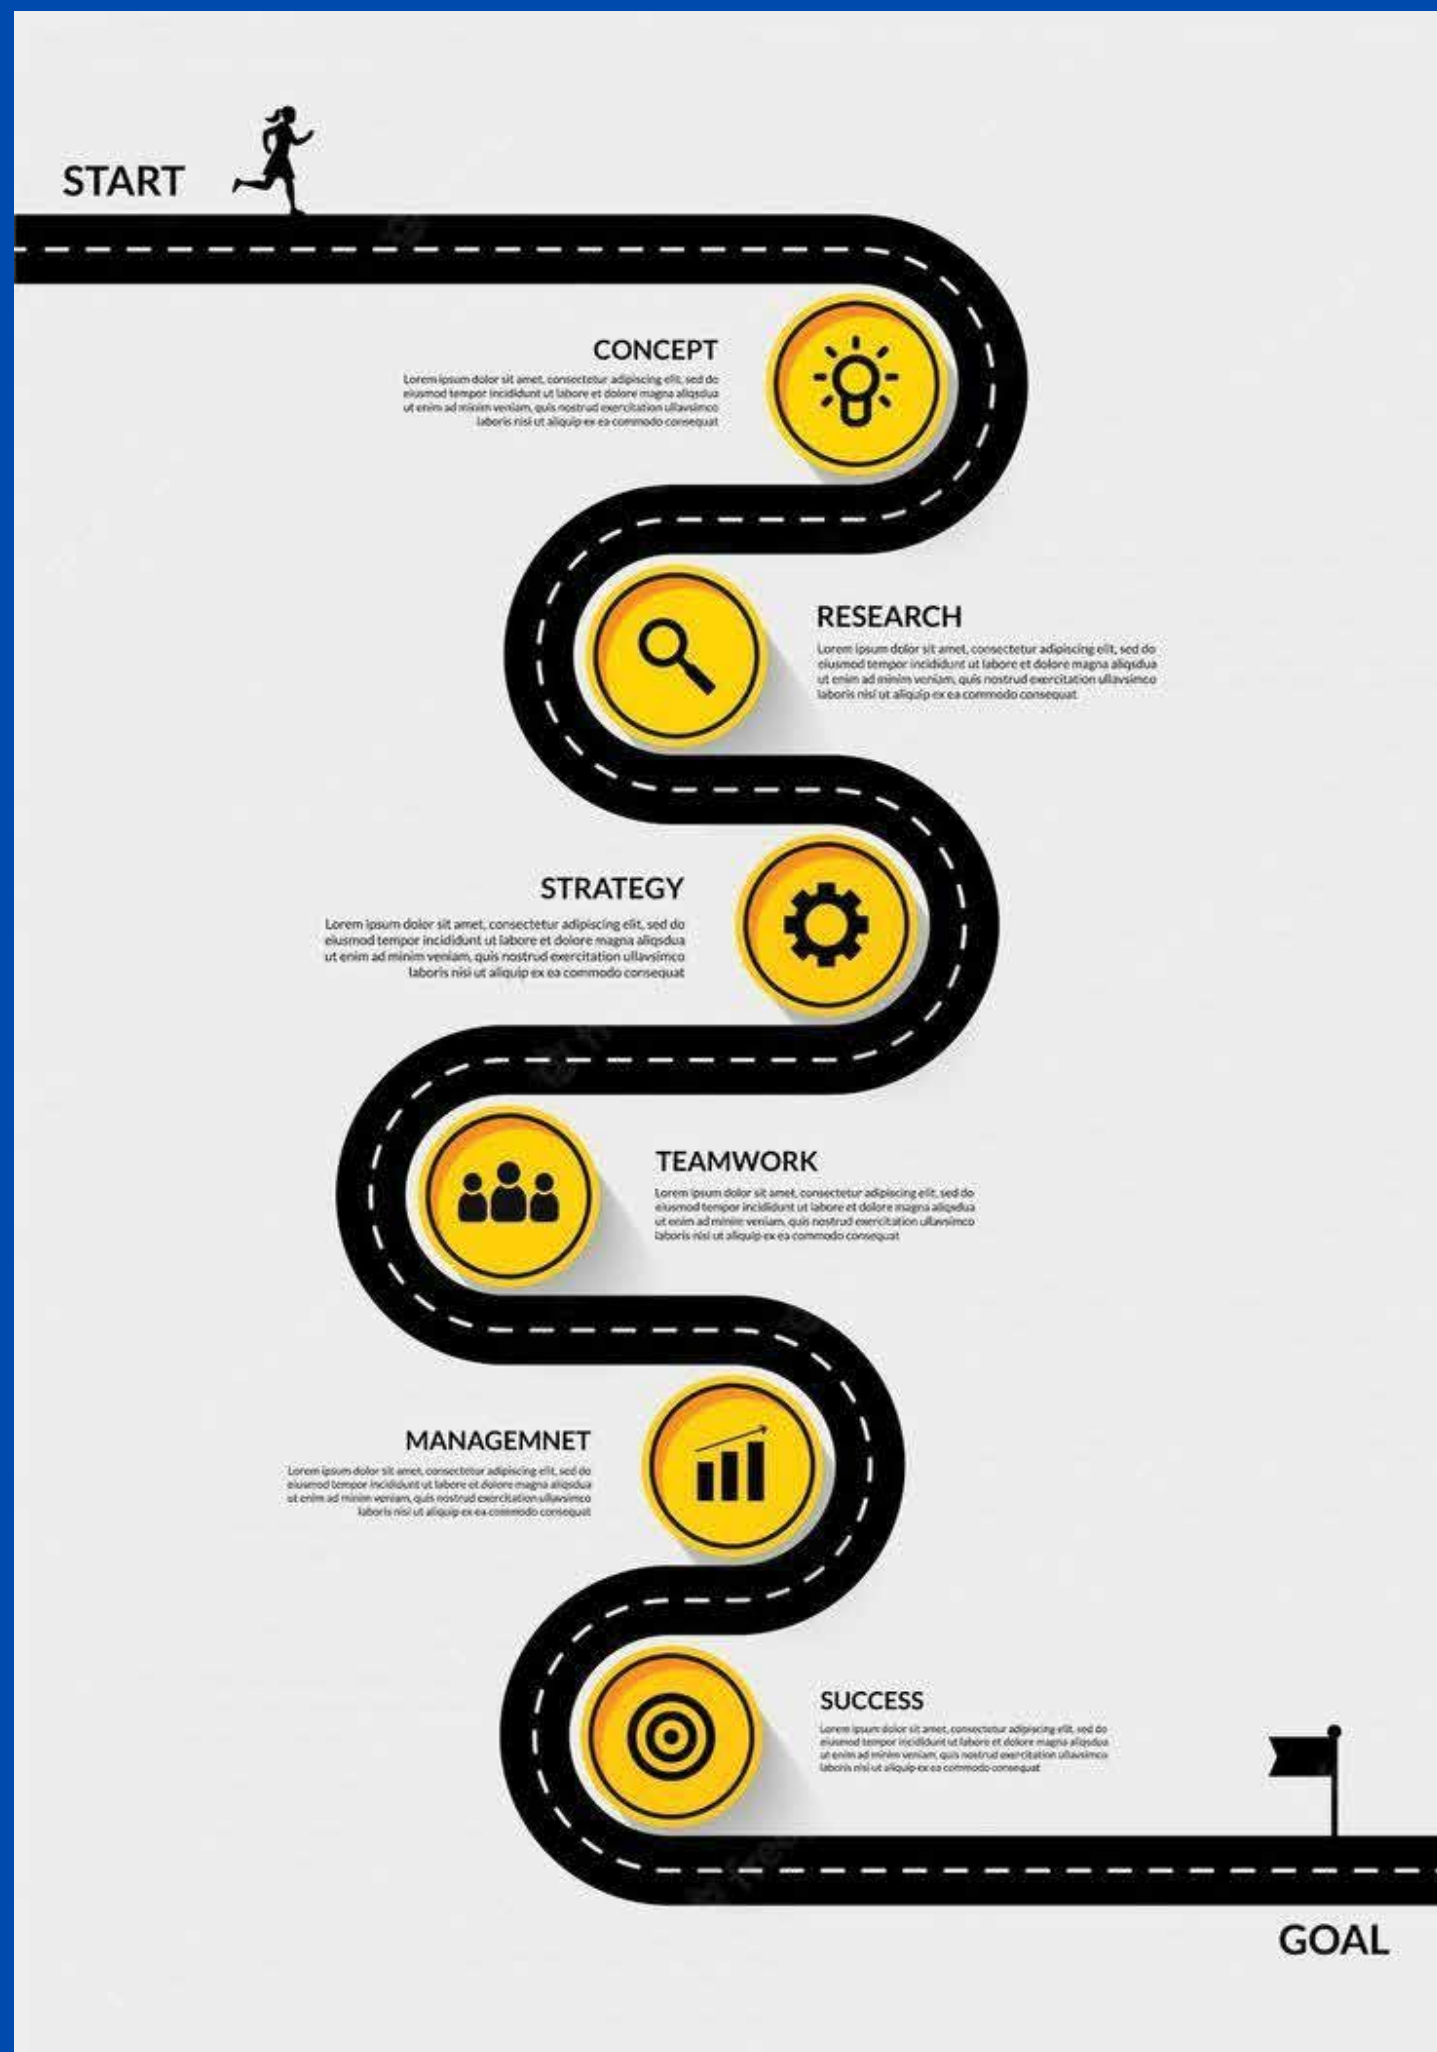

PHASE 3 — HOSPITAL ACTIVATIONS

Physical Marketing
QR posters
Reception onboarding
Demo booths
Staff workshops

PHASE 4 — STRATEGIC PARTNERSHIPS

Target:
Government hospitals
Private hospitals
NGOs
Digital health programs

GROWTH ROADMAP

Year 1

Mulago pilot launch
MVP stabilization
First hospital partnerships

Year 2

Expansion to major referral hospitals
Improved AI systems
Analytics dashboard rollout

Year 3

East African expansion
Multi-hospital platform
Smart healthcare ecosystem

WHY YOU SHOULD INVEST

Market Opportunity

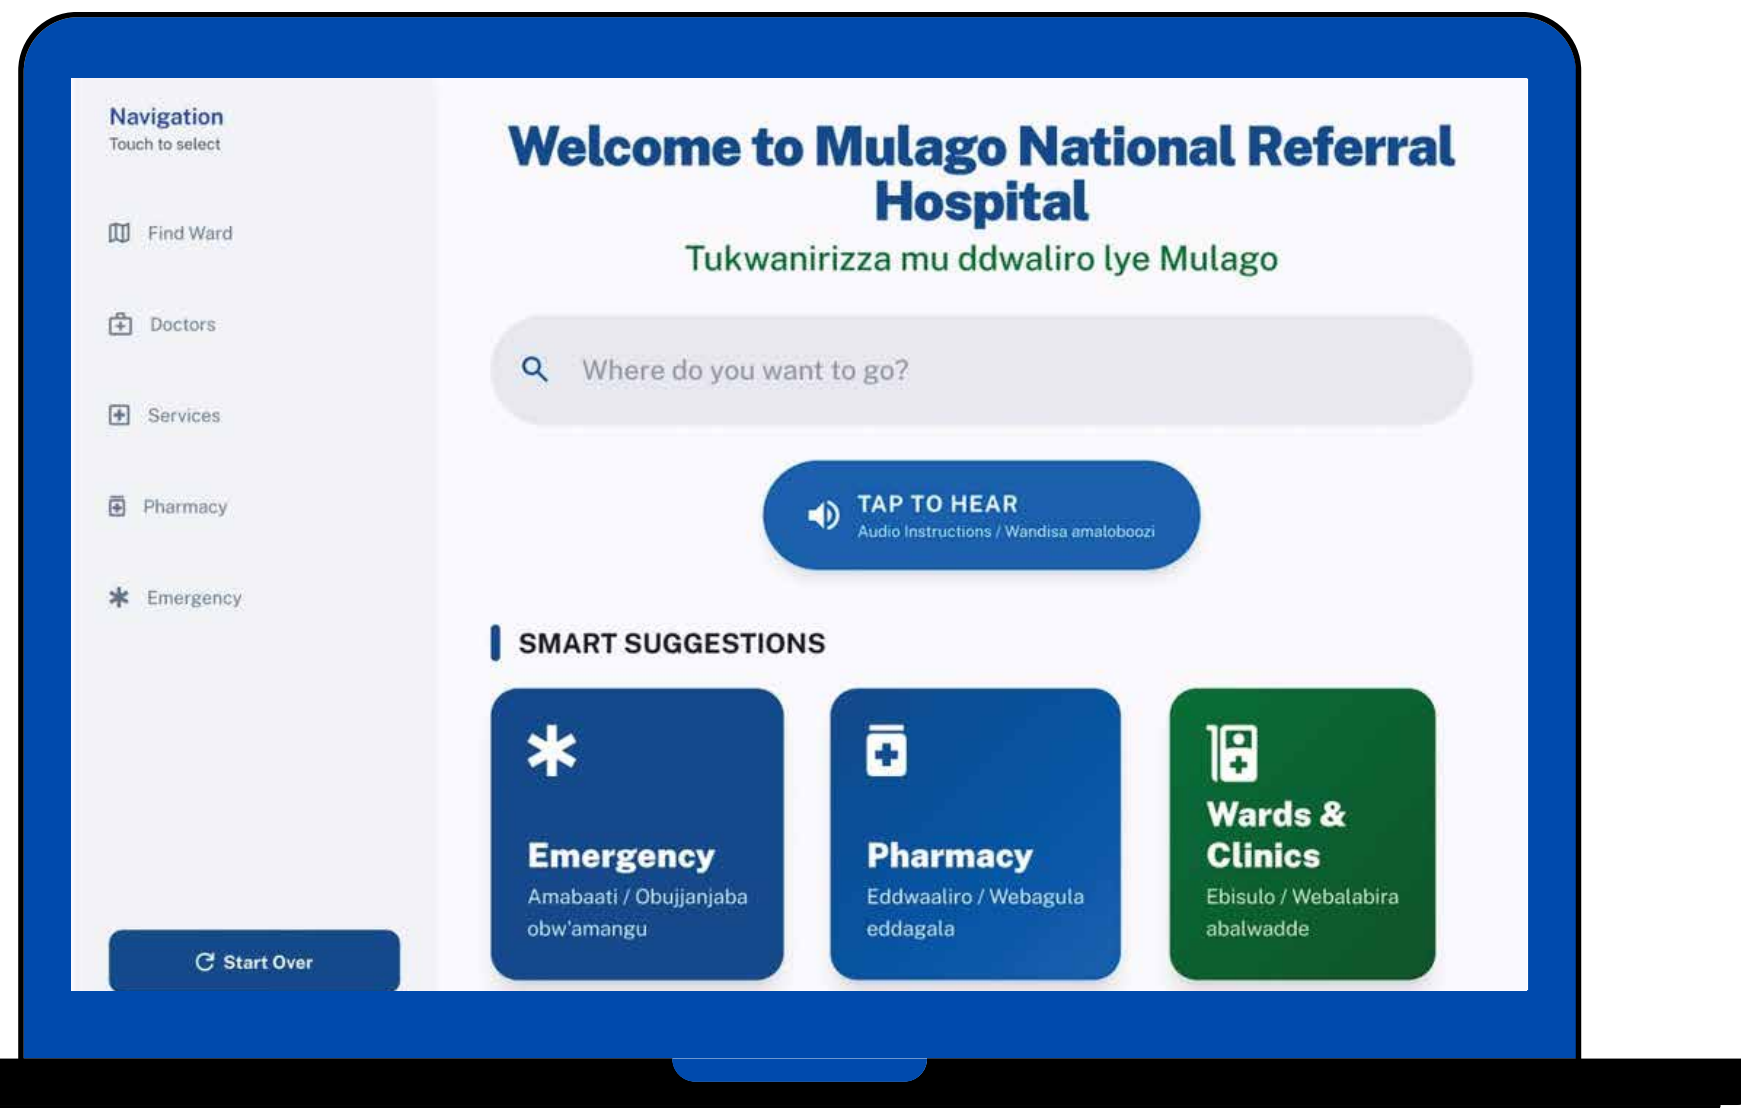

Healthcare digitization in Africa is growing rapidly, yet hospital navigation remains underserved.

Competitive Advantage

- First-mover advantage in Uganda
- AI-powered healthcare navigation
- Localized African solution
- Strong UX/UI differentiation
- Scalable business model

Social Impact

- The platform improves:
- Healthcare accessibility
- Hospital efficiency
- Patient experience
- Digital healthcare transformation

CONCLUSION

The Mulago Smart Navigation & Patient Support App is positioned to become a foundational healthcare technology platform for Uganda and East Africa.

With proper investment, strategic partnerships, and continued product development, the platform has the potential to transform how millions of Africans experience hospital systems.
